# RESEARCH QUESTION & OBJECTIVES

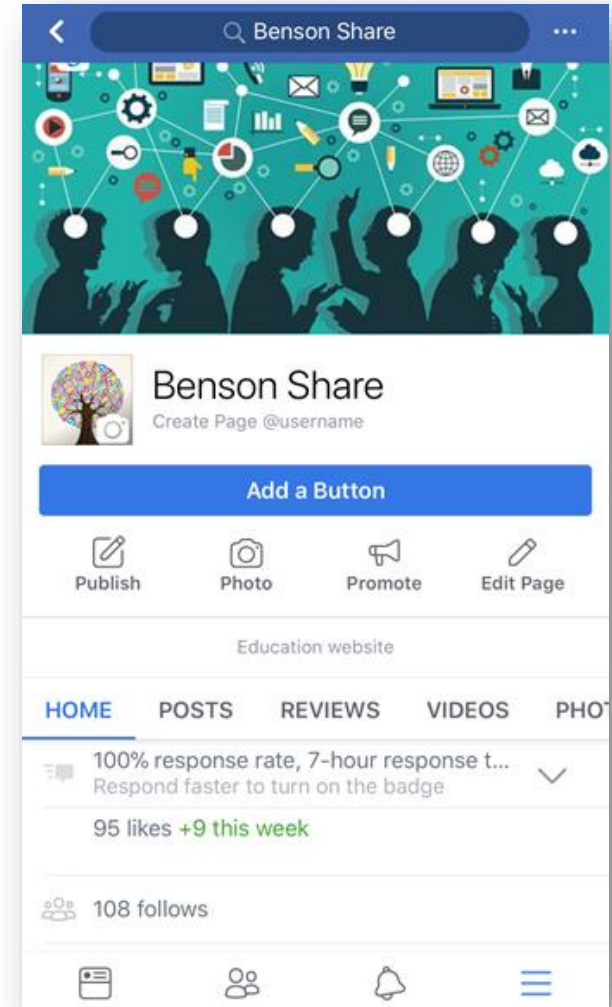

*Key words: Facebook, Authentic Learning and Student Engagement etc.*

## Question:

Does Facebook (FB) page help students in acquiring authentic learning opportunities and promoting engagement for VET?

## Objectives:

- To investigate the effectiveness of FB page use in bringing up authentic learning opportunities
- To understand how the overall quality of students' educational experience with this technology usage

### Authentic learning

- is a pedagogical approach that allows students to explore, discuss, and meaningfully construct concepts and relationships in contexts that involve real-world problems and projects that are relevant to the learner (Donovan, Bransford, & Pellegrino, 1999)
- includes activities that are real-world tasks that a person can expect to encounter on the job, in the home, or in other social contexts (Newmann and Wehlage, 1993)

### Social media (FB) activities have to be ...

- used as cognitive tools rather than for the dissemination of content and information, it allows students to engage more meaningfully with tasks, and to assume ownership of their knowledge, rather than reproducing the knowledge of their teachers (Jonassen, 1994)
- rewarding student participation to fostering students' engagement
- having students interact with each other through FB can help them establish early connections which are then fostered during the face-to-face activities (Fontana, 2009)

# METHODOLOGY: PURPOSIVE SAMPLING

*Moreover, I have developed tools for measuring the effectiveness*

95 people liking this and 108 people following this which accounted for around 3 classes

Attracted 18 students for proposal submission and 6 students were selected for these two authentic learning opportunities

# FINDINGS AND RESULTS (1)

*Students-generated feedback is an important indicator, and I listen*

No.	Item	Cumulative Disagree (%)	Cumulative Agree (%)
Part Two			
1	Do you agree that the said Facebook page effectively introduces you authentic learning opportunities (e.g. competitions, real-life projects and so on)?	16.7	83.3
2	Comparing to "Poster", do you consider the said Facebook page more approachable to you in bringing up authentic learning opportunities?	33.4	66.6
3	Comparing to "Email", do you consider the said Facebook page more approachable to you in bringing up authentic learning opportunities?	16.7	83.3
4	Comparing to "Self-searching", do you consider the said Facebook page more approachable to you in bringing up authentic learning opportunities?	16.7	83.3
5	Comparing to "Invitation by others", do you consider the said Facebook page more approachable to you in bringing up authentic learning opportunities?	0	100

# FINDINGS AND RESULTS (2)

*Students-generated feedback is an important indicator, and I listen*

No.	Item	Cumulative Disagree (%)	Cumulative Agree (%)
Part Three			
1	I feel comfortable posting my ideas or opinions on the said Facebook page.	33.4	66.6
2	I prefer discussing issues or topics on the said Facebook page instead of in a classroom session.	66.7	33.3
3	I feel encouraged by my friends “liking” my ideas or comments on the said Facebook page.	50	50

# CHALLENGES

*The biggest hurdles are commitment and alignment*

- It is important to create an learning community (a cognitive tool) on the online platform to ensure successful implementation
- How students engage with social media for learning is a complex and contested terrain
- Social media's educational uses vary and many factors influence student engagement

# CONCLUSION (1)

*Students' views on FB page are realized, followed by best practices to improve*

- In the student survey, levels of engagement is positive
- Students were rewarded and recognized with the successful proof-of-concept products
- The statistics gathered from the survey suggested that the students have found the communication plans to be effective
- Implying that student engagement has improved

# CONCLUSION (2)

*Students' views on FB page are realized, followed by best practices to improve*

- Students prefer not to discuss issues or topics on the said Facebook page instead of that in a classroom session
- Whether students feel encouraged by their friends “liking” the ideas or comments on the said Facebook page is not distinctive

The overall quality of students' educational  
experience with this technology usage
