

FSTE-HKCAAVQ Forum:

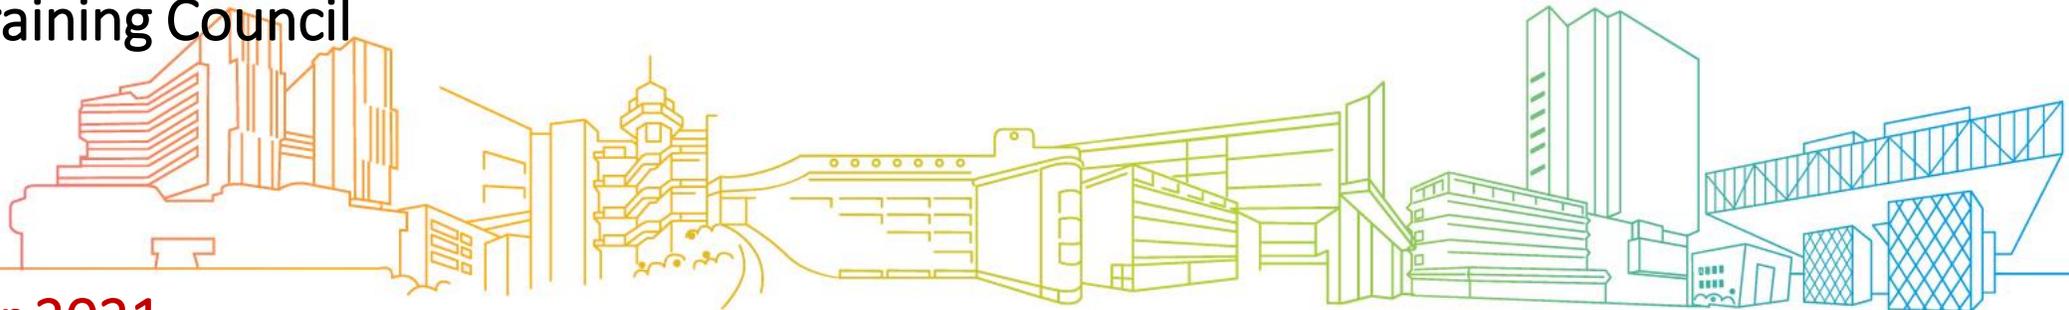

Education 4.0: Conceptualizing the Higher Education in the Future of Work

Vocational and Professional Education and Training 4.0 (VPET 4.0) – Shaping the Future of Work

Dr Michael Wang

Deputy Executive Director,
Vocational Training Council

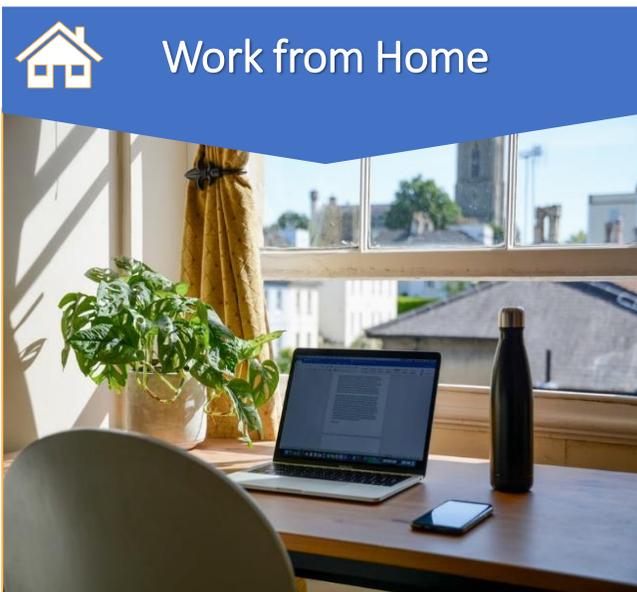

29 November 2021

The pace of acceleration in digitalisation across the globe is unprecedented in recent years, especially for post COVID-19.

The pandemic accelerated existing trends in **remote work, e-commerce, and automation**, with up to **25 percent more** workers than previously estimated potentially needing to switch occupations.

-The future of work after COVID-19 Report, McKinsey

Major changes in the workforce landscape are expected to adapt to the era of digitization by 2025.

VPET will continue to play a central role to equip the workforce with the future skills needed.

Technology will displace some jobs

- Data entry clerks
- Factory workers

The growing demand for digital skills in future global development

- Data analysts
- AI and machine learning specialists

Also, skilled professionals who keep the daily operation of Hong Kong need to embrace the future of work!

Since early 1980s, VPET providers have trained **over 907,000 graduates** to support daily operations in HK.

CE's Policy address 2021: Northern Metropolis development project

Construction

Railway maintenance

Lift and escalator maintenance

Construction

- The construction sector had successfully delivered almost 300,000 private and public housing units over the last 10 years.
- Digital construction – BIM, MiC, DfMA, AR/VR/Wearable Devices, 3D Printing
- Construction Digitalisation Roadmap – released on 1st Nov

Vocational and Professional Education and Training 4.0 (VPET 4.0) – Shaping the Future of Work

Key Impact 3 – Social Impacts

Lifelong Learning and Social Mobility

VPET providers play a crucial role in offering lifelong learning opportunities for **upskilling and reskilling** the workforce.

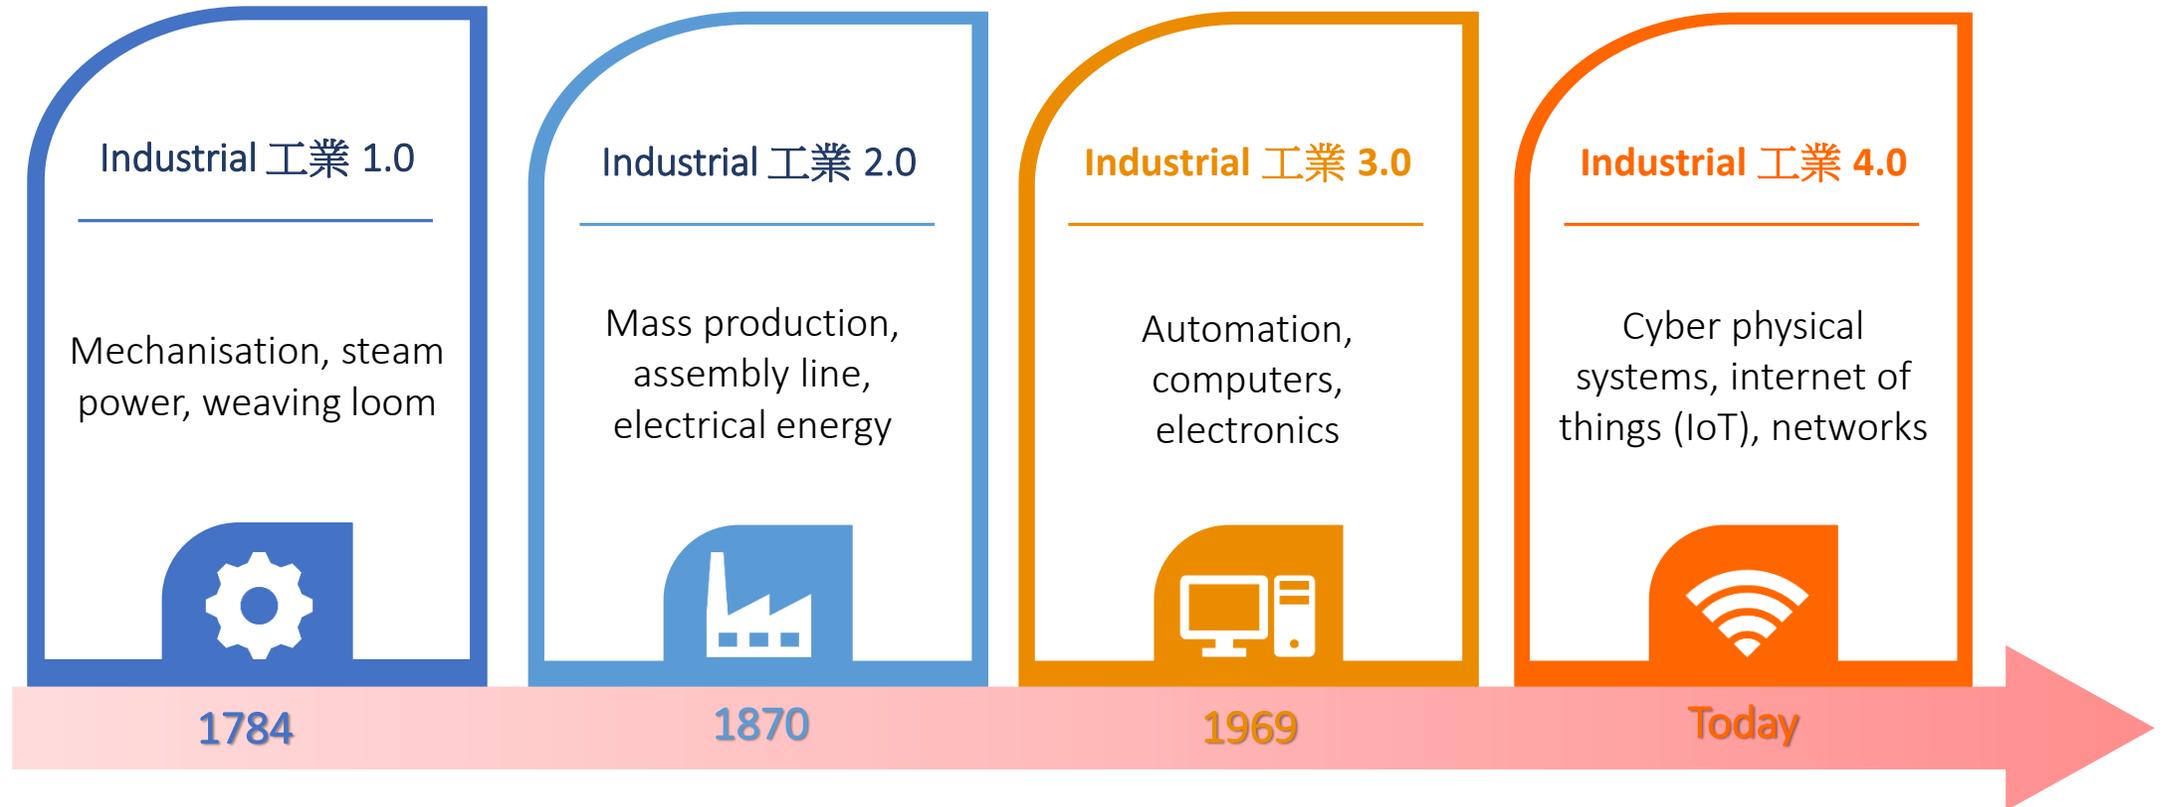

VPET significantly improves social mobility through **education and career enhancement**.

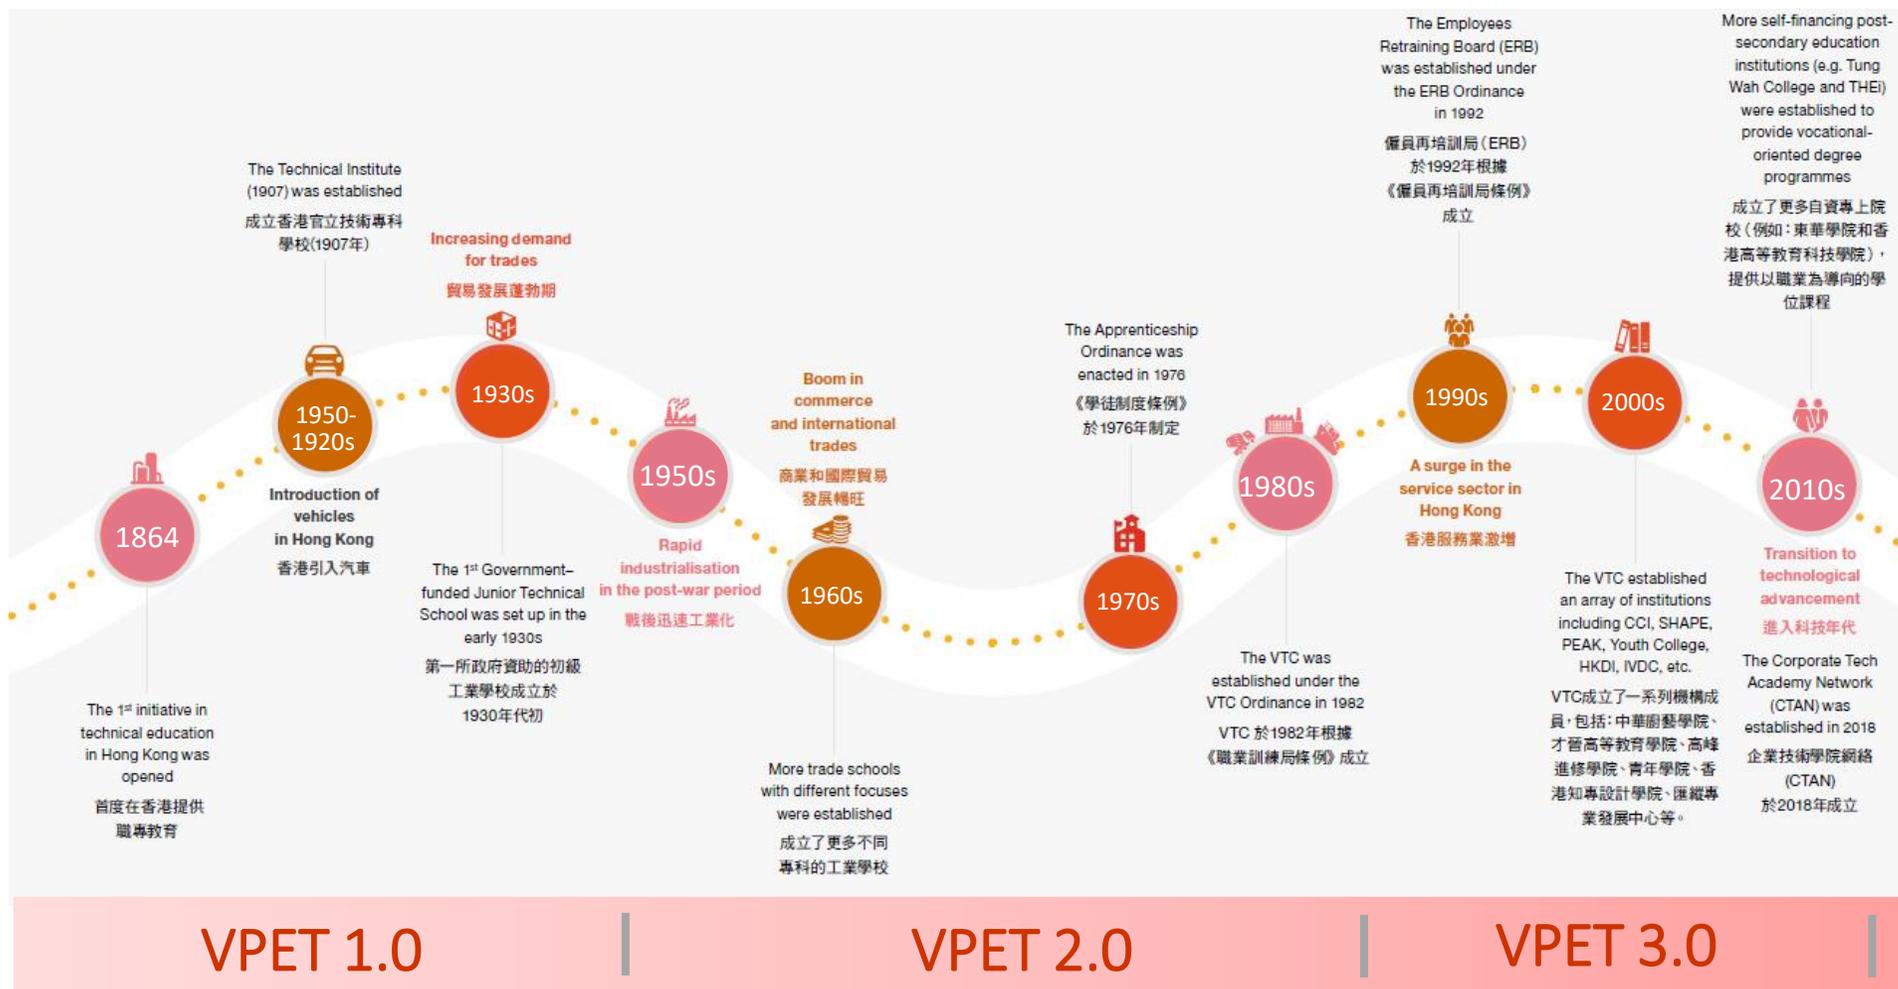

VPET 4.0

Industrial Progression

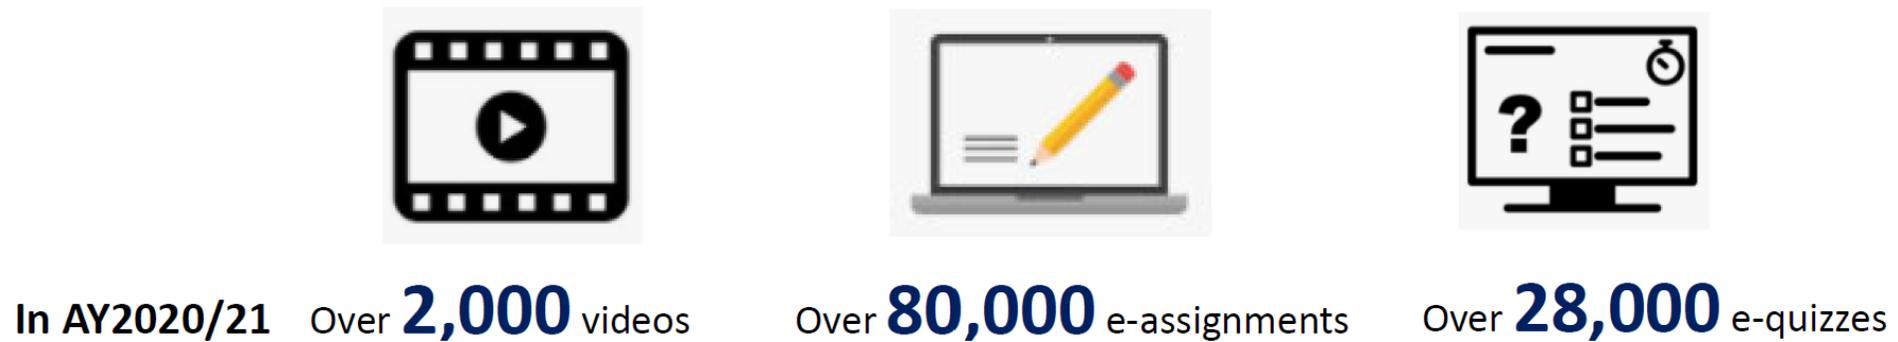

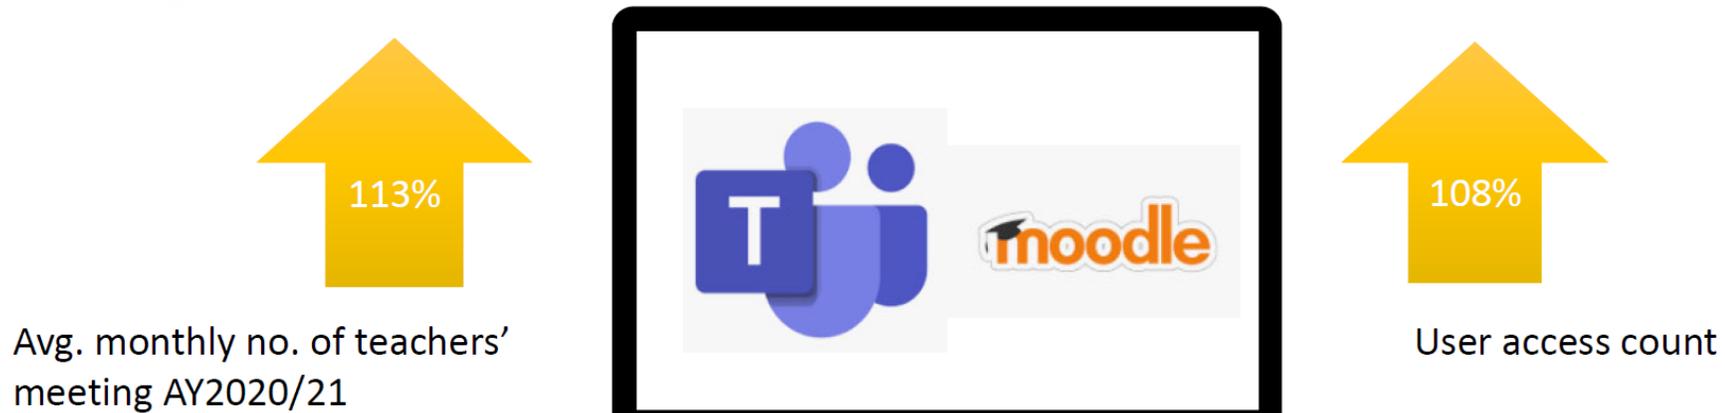

VPET supports the labour supply and plays an integral role in the development of Hong Kong.

What's next?

Essences of VPET 4.0

Virtual Learning Platform: Moodle, MS Teams and other online learning tools

Digital Curriculum - Digital Elements

Common **IT Essentials Modules** enhanced for VTC's 7 Academic Disciplines

Relevant **digital elements** embedded in VTC's degree, higher diploma and diploma curricula, helping students understand the new business models emerging from digitalization in different trades.

Intelligence

Cybersecurity

Connectivity

Automation

Digital Ethics

Digital ethics incorporated into the Whole Person Development module and trade curricula, and delivered through project work and workplace learning

Digital Ethics In the Internet Era

World Wide Web is a place where values are considered in the **broadest** sense

Internet is **not** a value-free zone

Everything posted in the internet can **stay forever** and go around the **world**

Everything written in the internet can receive **unimaginable feedback** and lead to **unintended consequence**

Digital Etiquette

Treating other Internet users with respect and avoiding inappropriate behavior

Digital Security

Personal data protection (data of yourself and others)

Digital Rights & Responsibilities

Personal rights and rights of others in cyber world

Digital Communication

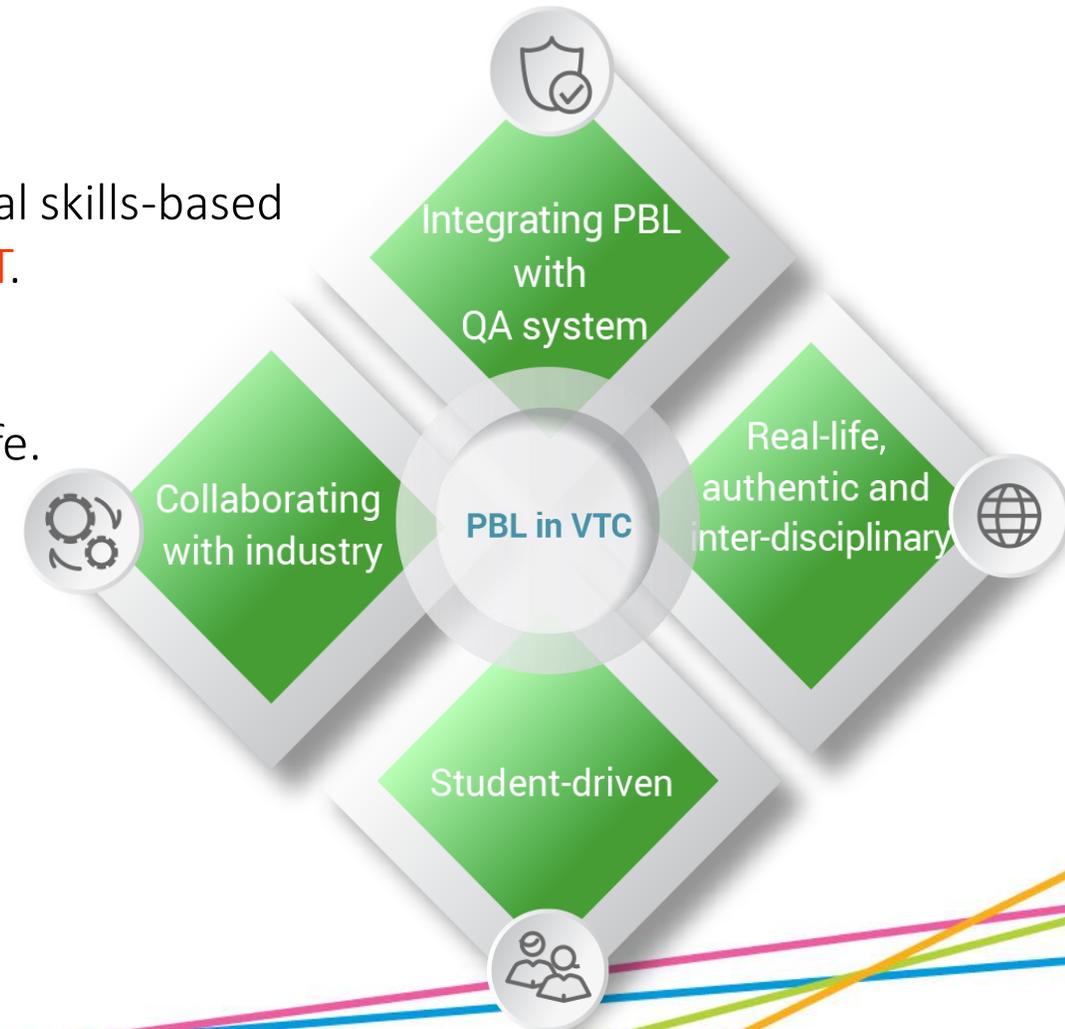

Use of digital apps for communication

Digital Health & Wellness

Be aware of one's health
Practice of stretching and proper posture

Project-based Learning 專題為本研習

- Project-based Learning (PBL) is considered as the essential skills-based training thereby **strengthening the characteristics of VPET**.
- PBL aims to nurture students with the **21st century competencies** for **solving problems** in workplace and in life.
 - Teamwork and collaboration
 - Self-directed learning
 - Communication
 - Project management
 - Reflection

Essences of VPET 4.0 – Workplace Learning

Example – VTC Earn and Learn Scheme :

VTC Earn & Learn Scheme integrates **structured classroom learning with on-the-job training**, providing young people with a clear career progression pathway and preparing them to join those trades and industries with great manpower demand.

The graphic illustrates the VTC Earn & Learn Scheme. It features a central image of a man in a blue shirt holding a tablet, with the text "Earn & Learn Scheme" overlaid. To the right, a diagram shows the learning pathway: "On-the-job Training" and "Classroom Learning" leading to three diploma levels: "Higher Diploma", "Diploma of Foundation Studies", and "Diploma of Vocational Education". Below this, five industry sectors are listed with icons: Engineering & Technology, Transportation, Design, Jewellery and Creative Industry, Healthcare Services, and Testing & Certification.

The Government and the participating industries will provide an allowance and a guaranteed salary. Participants can earn a steady income while acquiring knowledge and developing skills to pursue a Bright Future.

Essences of VPET 4.0 – VPET Recognition

International and Regional Recognition

Collaboration with partners in Mainland China and Greater Bay Area (GBA)

Example – VTC’s Collaboration with with other cities in Mainland China :

“Agreement on Comprehensive Enhancement of Sichuan-Hong Kong Vocational Education Collaboration between the Department of Education of Sichuan Province and the Vocational Training Council of Hong Kong” was signed by government departments and statutory bodies of HKSAR and Sichuan in September 2021.

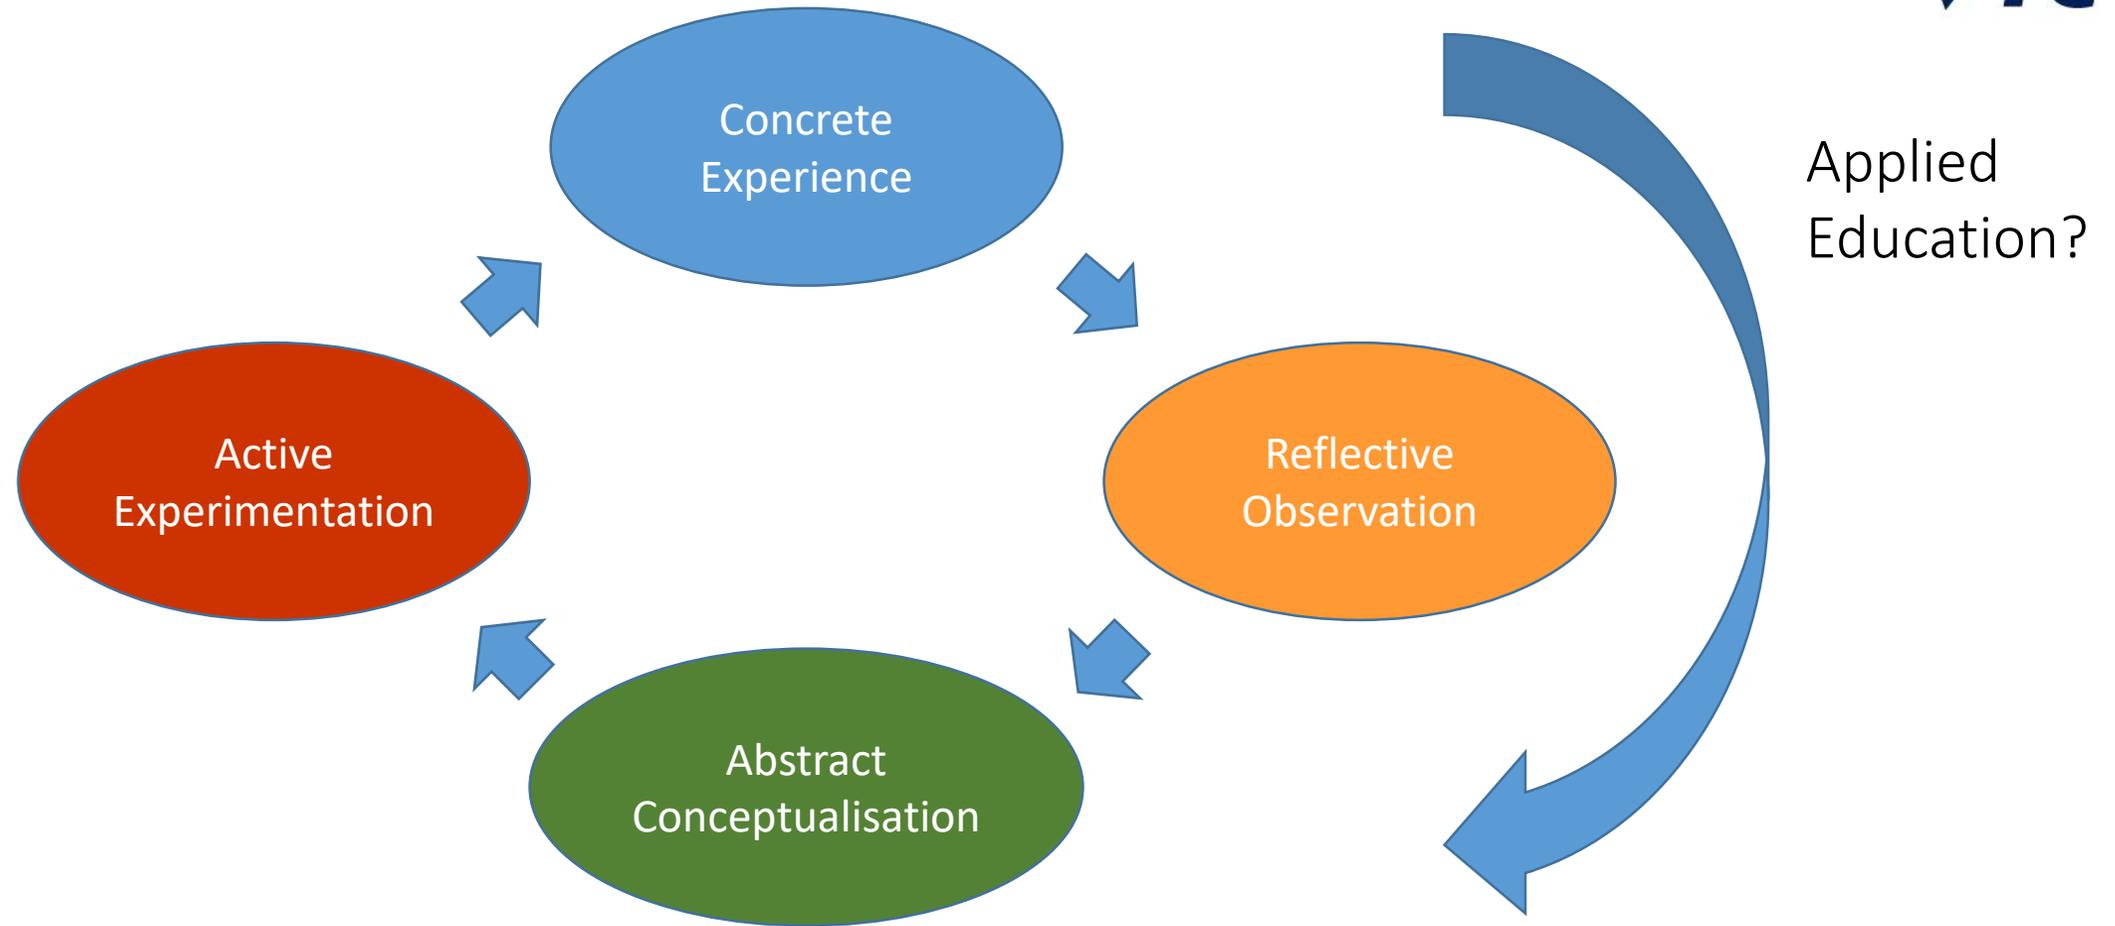

Example – Establishment of the Zhejiang-Hong Kong Vocational Education Alliance :

The Alliance will extend the cooperation between Zhejiang and Hong Kong to vocational education. Members of the Alliance will also **continuously improve the quality of talent training, and strive to build a modern vocational education system** so as to facilitate the economic and social development of Zhejiang and Hong Kong.

Applied Education?

Kolb's Learning Cycle

Emerging Trends in VPET 4.0

Blended Learning of VPET – Bite-size course, micro-credential and credit bank

Example – Digital Skills Programmes 2021:

Provide diverse programmes to promote culture of lifelong learning and give youths chances for continuous upgrading to **cater the latest and event the future industrial requirements.**

Robotic Process Automation (RPA) for Business Application

Multi-functioned Aerial Shooting

Environmental Protection Course for Environmental Supervisors

Innovative Smart City Applications

Introductory Workshop on Building Information Modelling for Management

Structural Analysis and Design with SAP2000

Certificate in NAO and Pepper and Object Recognition AI Programming Workshop

Practical Blockchain Concepts and Applications

Cybersecurity and Security by Design Workshop

Machine Learning with Python

Example – Professional Diploma Meister Programme

Professional Diploma Meister in Lift and Escalator Engineering

provide seasoned practitioners with a skill-based education and training in various important domains of the lift and escalator engineering industry, viz. installation, maintenance, testing and commissioning, and modernization.

VTC students swept 3 Innovation Awards in the City I&T Grand Challenge by Co-Creation
